

Bring your plush ideas to life

Our passion is using our hard-earned knowledge and expertise in working with our customers to bring their plush ideas to life. We have real, hands-on design and manufacturing know-how and are eminently qualified to work with you in comprehensively developing any plush toy idea that you may have, no matter how challenging it may be.

Whether you are looking for someone to manage your entire plush toy project or you want help in any of the various stages of plush toy development - concept, design, prototype stages, manufacturing and delivery stage, we can handle whatever your needs are.

Our full range of expertise allows our customers to develop their plush toy ideas through us in a timely and cost effective manner, with a minimum of inconvenience, and ensuring a quality finished product. We enjoy the challenges asked of us - and there have been many over the years!

We can help you on plush and logo design from the start, even if your great idea still only exists in your mind. We help you create a picture and a concept that represents your idea. No matter what your vision is we can find a way to present your thoughts in a clear, understandable, yet professional way.

All our designed and manufactured products conform to International Toy Safety Law and can meet European stands EN71

We hope you enjoy viewing all our plush creations. And hope we will have a chance to work with you on your plush ideas!

We look forward to bringing your plush toy ideas to life.
